

1. Write a Python program which accepts the user's first and last name and print them in reverse order with a space between them

```
fname = input("Input your First Name : ")
```

```
lname = input("Input your Last Name : ")
```

```
print (lname + " " + fname)
```

output:

```
Python 3.7.4 Shell
File Edit Shell Debug Options Window Help
Python 3.7.4 (default, Aug 9 2019, 18:34:13) [MSC v.1915 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license()" for more information.
